

SAMPLE TOUR 10 Day tours only Spring and Autumn

This itinerary gives you basic details of places we will visit. Depending on the weather etc. we may change days. For example, if we are having a picnic and its raining on the day, we simply move days around so that we can enjoy the day at another time during the trip without getting wet. Everything on the itinerary will be done to the best of our ability. Occasionally we change a visit. This sometimes happens when, for example, I hear of a market or special event that I feel is important. You can attend all or none of the excursions. We hope you join us on all! Should you wish to take time out at any stage just let me know. We do visit temples, museums etc. these visits are chosen to enhance the tour so that we see culture as well as textiles. **Most people arrive the day prior to the start of the tour.**
